

The leading logistics company in the chemical and pharmaceutical sector will bring all its Barcelona area operations together at its new hub

AIRFARM MOVES INTO THE PARC LOGÍSTIC DE LA ZONA FRANCA WITH THE LEASE OF 10,400 m²

Barcelona, the 18th of April 2013 — Parc Logístic de la Zona Franca (PLZF) has recently signed a 15-year lease agreement with logistics firm Airfarm Group for a 10,400 m² facility. In its new facility, the company will consolidate its status as a leader in the chemical and pharmaceutical logistics sector, as well as further its highly specialised storage operations for goods requiring special care (refrigerated or temperature-controlled). With this new contract, PLZF occupancy is above 90%.

The new hub occupies five sections of the D4.1 unit, a large-capacity facility that will allow Airfarm to unite its operations, which are currently divided among three sites in the Barcelona area. The company expects to begin operations at the PLZF next October, once work on adapting the leased facility has been completed.

Airfarm Group, which is celebrating its 25th anniversary in 2013, is a continuously-growing logistics organisation that offers national and international services in transportation, warehousing, customs clearance, cargo handling and logistics consulting services. The company has a network of over 140 professionals across its offices in Brazil, Dubai, Spain, Hungary, Switzerland and Uruguay.

About Parc Logístic de la Zona Franca

Parc Logístic de la Zona Franca, participated by Consorci de la Zona Franca and Saba Parques Logísticos, comprises 130,000m² of cutting-edge logistics premises divided into nine buildings, and 35,000m² of offices divided into three buildings. These are the head offices of the Consorci de la Zona Franca, Abertis Infraestructuras and Saba Infraestructuras.

The park occupies a total area of 41 hectares in Barcelona's Zona Franca and is adjacent to the Ronda Litoral ring road. It is also close to the Fira trade fair complex, Barcelona Port, the L'Hospitalet economic area, the Can Tunis freight train station and Barcelona's ring roads, as well as enjoying easy access to El Prat airport. The Logistics Park project is considered to be one of the most important in Barcelona today and in 2014 it will count with L9 underground station in the area.
