The company manages about 63,000 parking spaces distributed across 71 centers all over Catalonia

Saba has been awarded the concession for a controlled parking zone in Blanes (Girona) as well as two car parks in Castellar del Vallès (Barcelona)

- The three locations total more than 3,500 car park spaces.
- Saba has obtained the concession of the two infrastructures for a period of 15 years in Castellar del Vallès, while in Blanes for 10 years.
- Overall, Saba manages about 142,000 parking spaces distributed across 200 car parks in Spain, Italy, Portugal, Chile, France and Andorra.

Barcelona, the 24th of January 2013

Saba Parkings, the parking division of Saba Infrastructure Group, has been awarded the concession of the controlled parking zone of Blanes (Girona), which has about 3,000 parking spaces (420 stable throughout the year and 2,500 operational in the summer months), for a period of 10 years. The company will also assume investments around 800,000 Euros for the renewal of the location, especially with the installation of new parking meters and the improvement of the signaling system.

On the other hand, the City of Castellar del Vallès (Barcelona) has awarded Saba Parkings the concession of two infrastructures: the parking area of the Plaza Mayor, with a total of 244 parking spaces, and the controlled parking zone, of 263 parking spaces. The concession contract for the two locations extends over a period of 15 years. Furthermore, Saba will invest about € 200,000 to improve a great range of both infrastructure equipments. This is why the control equipment will be renewed and connected to GEDA (Centralized Remote Management service), which can offer centralized support to car park staff and, as a result, better customer service. In the controlled parking zone, Saba will install five new parking meters.

With the addition of these new locations to Saba Parkings' car park network, the company manages around 63,000 parking spaces distributed all over Catalonia, spread over 71 car parks of 29 cities. Saba Parkings is the leading operator in Spain and one of the largest operators in Europe. It is currently present in more than 80 cities in Spain, Italy, France, Portugal, Chile and Andorra. The company manages approximately 142,000 parking spaces in more than 200 car parks. It is also engaged in new projects that will increase the network to 213 car parks and more than 147,000 managed parking spaces. Saba Parkings is part of Saba Infraestructuras, a leading company in car park management since 1966 and in logistics park management since 1999.
